

KITCHENS

BEAUTIFULLY DESIGNED FOR EVERYDAY LIVING

Gerald Giles

Part of the Snellings Group

NO STRESS. JUST THOUGHTFUL DESIGN

We take care of everything – from first sketch to final screw. Our designers help bring your ideas to life, and our trusted installation team handles the details. No chasing trades. No pressure. Just a seamless experience from start to finish.

EXPLORE AT YOUR OWN PACE

Our Norwich showroom is a calm, welcoming space where you can take your time, feel the finishes, and be inspired. When you're ready to talk, we'll listen – and help turn your ideas into something real.

TRUSTED FOR OVER 75 YEARS

We've been helping East Anglian homes look and feel their best for generations – from appliances to interiors, and now, exceptional kitchens. As a local, independent business, we care about the details – and about getting it right.

Every space we design starts with your life - how you cook, gather, unwind, and live.

Whether you love a clean, contemporary look or a classic shaker style, we'll shape your kitchen around what matters most to you.

One style, consistently implemented. Create a harmonious space for both cooking and living and introduce recurring elements, with sideboards and cupboards featuring slate grey fronts and the matching Stripewood niche cladding, also in slate grey. The extendable dining table boasts a light oak look for a welcome touch of warmth. The Swing dining table chairs in cognac finish off the harmonious overall impression to perfection. And that's how you create a special sense of space.

Pure design

LINE N KITCHENS

ELEGANCE WITHOUT HANDLES

Highly customised design across the board: handleless kitchens combine modern design with functionality. With ten handle profile colours to choose from, LINE N offers a whole host of options for personalising your interior style, whether tone-on-tone or as a targeted accent.

Harmonious design: Curve end units with flowing contours are highly versatile, create the perfect transition from tall units with vertical recessed handles and are ideal for end unit and island designs.

Illuminated recessed handles in a one or two-track design are the perfect light accent and create a cosy atmosphere.

Highlight your design style with vertical recessed handles, which emphasise ceiling-high systems up to three metres tall.

GREEN OASIS

Salad tastes so much better when everyone pitches in, which makes it all the more practical that the kitchen is easy to maintain and perfectly suited for everyday use. Thanks to the matt surfaces enhanced with an innovative anti-fingerprint coating, fingerprints don't stand a chance.

With its wide range of materials and colours, nature is the perfect source of inspiration for our kitchen design. In combination with the robust Milano walnut worktop, the tone-on-tone concept in olive creates a perfect balance between modernity and a connection to nature. The Stripewood dark niche cladding reinforces the cosy charm with astonishingly authentic wood décor, making this a natural space in which to spend your valuable time with loved ones.

SENDO

485 Lacquer, premium honed
sky

CLEVER ROOM DESIGN

Limited space, but plenty of room for ideas. The tone-on-tone colour scheme of the delicate sky pastel creates a visually clear and tidy atmosphere. As is typical for urban kitchen design, functionality merges with aesthetics, with both the access doors and the neighbouring utility room skilfully integrated into the kitchen design.

Start your day the natural way. This mix-and-match worktop was creatively composed to form a counter, radiating good taste in three layers.

OPTIMAL USE

Give free rein to your individuality even in smaller spaces such as cosy apartments under the roof. Glossy white kitchen modules and a highboard with semi-transparent glass fronts create space under the rafters. Wooden elements and natural materials provide striking contrasts.

NOVALUX

516 Lacquer, alpine white high gloss

Who says you can't plan style? Ceiling-high cupboards for maximum use of space, recessed handles throughout and a kitchen entirely in jade form the basis for this refreshingly modern design. Our new and elegant green quartzite décor for niche cladding and worktops is sure to turn heads.

SENSO

494 Lacquer, premium honed jade

FAVOURITE COLOUR

Delicate colours wonderfully complement old-building charm. Tall units make optimal use of space and offer lots of storage options, with a fresh look underlined by the terrazzo elements such as the worktop and niche cladding. The counter for two is sure to be your new favourite place.

The kitchen counter is a gathering place. Coffee in the morning, cooking and a drink in the evening – you can enjoy every moment here, on your own or with your four-legged best friend. The matching bar stools with vegan leather upholstery are so unbelievably comfortable, you'll never want to leave your favourite place.

NOVALUX

516 Lacquer, alpine white high gloss

CONSCIOUS DECISION

Greener living in the city! The kitchen features mineral green elements with taupe grey accents for a look that's both modern and natural. Who wouldn't love a small storage space that can disappear behind an access door and make everyday life in the city a little more sustainable? What a great idea!

EASYTOUCH

964 Lacquered laminate, mineal green ultra matt

970 Lacquered laminate, taupe grey ultra matt

Herbs grow here in plant boxes set in a modular shelving system – right here in the middle of the kitchen thanks to special plant lighting.

OPEN TO NEW IDEAS

An open kitchen that extends into the living space and reflects the idea of cosiness and socialising. The uniform colour design in concrete look provides the kitchen with an urban flair and ensures an airy atmosphere that's further underlined by the open shelf unit.

RIVA

EASYTOUCH

961 Lacquered laminate, graphite black ultra matt

963 Lacquered laminate, rust red ultra matt

A shining example of an expressive living room / kitchen. In combination with graphite black, the rust-red colour design forms a living atmosphere and adds a touch of personality and creativity to your kitchen.

You'll feel like a professional when you cook in the kitchen with a stainless steel look. Recipe for success: two kitchen runs combine with an island to create plenty of surface space for organised work in the kitchen. Open shelf elements can keep dishes, spices and fresh herbs within easy reach. And black design elements add a little extra.

SIGN EMOTION RAILING SYSTEM

FLEXIBLE INDIVIDUALITY

Opens up new possibilities: the modular railing system now offers a huge amount of freedom for individual design in the kitchen, living room and bathroom and also looks exceptionally modern.

Long live individuality! Shelf units in a variety of widths and heights as well as special features and organisational aids make Sign Emotion a flexible all-rounder that combines storage space and design in a modern way. Now also with black glass doors. How it works: with the exception of the socket, every element can be hooked or hung at any position and moved around on the rail. The aluminium system is available in black and a stainless steel look.

Sign Emotion offers helpful system extensions for the kitchen, including a magnetic knife rack, holders for coffee capsules and kitchen roll, and a variety of versatile shelves. With the optional LED light design, Sign Emotion is sure to steal the limelight.

An additional socket and special holders for tablets are also possible. The holder for the Teufel MUSICSTATION is a special highlight and even received the Best of Interior Award.

Double power outlet with touch protection and integrated USB charger.

ANTI-FINGERPRINT COATING

FLAWLESS PROPERTIES

Made for life! Our anti-fingerprint coating functions much like a protective shield, making fronts highly robust, durable and resistant to unsightly fingerprints. And it couldn't be easier to care for in everyday life, which is a real relief especially for families. Available in a range of eye-catching colours from traditional to modern, the anti-fingerprint coating boasts extraordinary depth of colour for an especially high-quality effect.

A good feeling! All the surfaces are highly robust and scratch-resistant as well as extraordinarily soft and pleasant to the touch.

Made from 100% recycled material, the surface of our anti-fingerprint fronts can be fully recycled at the end of its service life, making it wonderfully sustainable.

Our anti-fingerprint fronts are available in the following colours:

More space, more light, more freedom. The perfect recipe for a relaxed family life at home. The kitchen and living area, designed in white throughout with light wood accents, has impressively family-friendly qualities: the anti-fingerprint coating makes the kitchen particularly robust, easy to clean and perfectly suited to everyday use. And forming an atmospheric highlight at any time of day: illuminated recessed handles.

SENSO

490 Lacquer, premium honed alpine white

The spacious kitchen featuring integrated home office ensures a harmonious flow between cooking and work, making it easier than ever to cultivate a loft atmosphere. Natural surfaces take centre stage and add a little warmth to larger rooms.

AN OASIS OF WELL-BEING

Life happens in open and spacious kitchens, where people pursue their love of cooking every day. With space for everyone and everything, the kitchen island in wood-look Sierra oak is a true natural beauty and the central location for cooking together, chatting and enjoying family life. The combination of natural-looking wood elements and bright décor in satin grey ensures the perfect balance of cosiness and modernity. The matt lacquered fronts with innovative anti-fingerprint coating are ideal for simplifying everyday family life.

GOOD CONNECTIONS

Although the elements maintain a consistent colour, the design is anything but monochrome. It is soothing and harmonious. And why? Because of the compact clean lines and luxurious urban basalt look. The integrated shelving elements are another major feature that is sure to catch the eye.

STONEART

305 Taupe grey basalt reproduction

Sophisticated eye-catcher. Featuring an island end unit with a glass upright panel, the counter element is much like a modern display cabinet and can be used to creatively showcase your favourite pieces and accessories.

NATURAL CHARM

This bright, inviting and friendly ambience is the perfect place to share special moments. Clear lines combine with the soft sand colour to create a relaxed atmosphere and modern cottage style flair, which makes family and friends feel right at home. With a focus on maximum cosiness, the elongated wall board not only offers space for everything that's important to you, but also adds a touch of personality to your kitchen. The glass elements with framed glass doors ensure lightness and the typical Scandinavian look, whilst the interior unit lighting creates just the right mood. Perfect for any occasion.

Cottage Bliss

Whether you're cutting cake or raising your glass for a toast, the inviting kitchen island is the ideal location for special occasions. The robust sand grey travertine worktop exudes a modern, natural flair and perfectly complements the understated elegance of the sand-coloured fronts and screw-on handle recess.

COSY LIVING

This kitchen is suitable for everyday life, as it offers numerous drawers and pull-outs in different sizes – with plenty of space for practical and personal use.

A fresh take on the cottage style! Colour can change everything, just like creative ideas. Integrate a small workspace into your kitchen with a cosy niche in a matching wood look.

CASCADA

776 Lacquered laminate, reed green

DINE TOGETHER

Fjord blue sets the tone and creates an atmospheric, modern ambience. Light-coloured oak elements such as the niche, work surfaces and shelf elements in the adjoining living room make everything even cosier.

Details such as pilasters and cornices are available in the popular fjord blue.

CASCADE

778 Lacquered laminate, fjord blue

CASCADA

774 Lacquered laminate, white

Enjoy holiday living and a fresh breeze in the morning with the northern-inspired kitchen, which combines modern elements such as elegant upright panels with selected details such as wooden handles and pull-outs with fronts made from solid wood.

The modern, Scandinavian-style kitchen has plenty to offer! Whether cast iron handles, straight framed doors with elegant glass inserts, innovative lighting or tall dresser units, the new, no-frills homeliness and functional details are sure to win over the entire family.

NORDIC

782 Lacquer, honed white

EXCLUSIVE FLAIR

Undeniably stylish elegance for the most discerning tastes, with hand-finished fronts and handcrafted cornices and pilasters. Featuring metallic accents in gold and large-surface marble décor, this design radiates international flair, creating the ideal place for dinner with friends.

Perfection meets extraordinary quality, which is reflected in each and every detail. Atmospheric framed glass doors and the niche made from dark marble are an aesthetically pleasing example.

CASTELLO

390 Washed ivory

Delight in the real thing! This exclusive cottage style kitchen is made from solid wood. Classic country details: pilasters, cornices and typical grooved structure.

YORK

901 Genuine wood, lacquered satin grey

A NEW LEVEL OF FUNCTIONALITY

The easy way to organise. With clever organisation for a tidy storage space, a clearly structured utility room offers plenty of space for equipment, cleaning supplies, detergents and more. Our sophisticated organisational solutions enable optimal use of every last inch and adapt to your needs.

CUSTOMISED STORAGE SPACE

Tall units are storage space miracles and thanks to their intelligent interior organisation and durable mechanisms, they offer lots of space to put away all manner of things but keep them within easy reach. The pantries are available in all tall unit heights and in two highboard heights.

PERFECT ERGONOMICS

Everyone is different and therefore needs a working height that is customised to suit them. Our height system allows working heights of between 66.2 cm and 110.2 cm, and four carcass heights are available to choose from. And the best thing? The combination of base units and plinth heights mean that even the storage space can be maximised while keeping almost the same working height.

For various activities such as preparation, cooking and washing up, we also offer the respective ergonomically suitable and thus relaxing active height. Individual fine tuning is achieved using four different plinth heights and three worktop heights. Get active!

nBOX INTERIOR

PERFECT MATCH

The elegant premium design of the nBOX is continued in the interior of our cabinets and pull-outs with its cubic design language and slate grey colour scheme. For drawers, pull-outs, larder units or half cabinets with swivel pull-outs: every element of our range has been perfectly coordinated to create a uniform look.

Our slate grey or oak cutlery inserts and universal organiser systems blend seamlessly into the nBOX look. The interior organisation system in solid oak can be harmoniously combined with the nBOX design covers and profiles in Sierra oak to create stylish accents.
