Highly customised design across the board: handleless kitchens combine modern design with functionality. With ten handle profile colours to choose from, LINE N offers a whole host of options for personalising your interior style, whether tone-on-tone or as a targeted accent.

Harmonious design: Curve end units with flowing contours are highly versatile, create the perfect transition from tall units with vertical recessed handles and are ideal for end unit and island designs.

Illuminated recessed handles in a one or two-track design are the perfect light accent and create a cosy atmosphere.

Highlight your design style with vertical recessed handles, which emphasise ceiling-high systems up to three metres tall.

You'll feel like a professional when you cook in the kitchen with a stainless steel look. Recipe for success: two kitchen runs combine with an island to create plenty of surface space for organised work in the kitchen. Open shelf elements can keep dishes, spices and fresh herbs within easy reach. And black design elements add a little extra.
